

DATA CAPTURE, REPORTS AND REAL-TIME ALERTS

- ▶ **Take Action Against Internet Misuse**
- ▶ **Improve Productivity and Morale**
- ▶ **Increase Bandwidth Efficiency**
- ▶ **Reduce Costs**

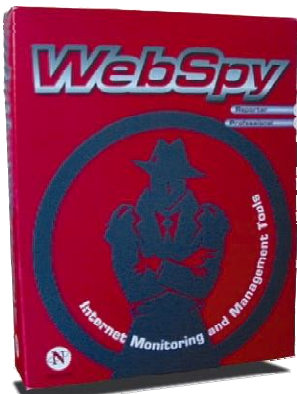

WebSpy Sentinel enables you to capture the Internet content accessed by your organization, down to the level of individual files downloaded from the web, or the attachments to emails. The data captured by Sentinel can then be used in Analyzer Premium to provide historical analysis, and in Live to provide a real-time solution to Internet misuse.

KEY FEATURES

- ▶ Complete integration between Sentinel, Analyzer Premium and Live for customized reporting and alerting on captured data.
- ▶ Sentinel captures multiple protocols including SMTP, HTTP, NNTP, FTP and Telnet.
- ▶ Full-content capture includes web pages, email attachments/text and newsgroup discussions.
- ▶ WebSpy Live enables organizations to access data on Internet use in real time by triggering customized alerts based on content, file size or browsing time.

The image shows two overlapping software windows. The top window is 'Sentinel Management' showing a 'Protocol Configuration' table with columns for Port, Protocol, and Capture Content. The bottom window is 'WebSpy Analyzer Premium 3.0' showing a 'Live Status' sidebar with categories like Excessive Browsing, Individual Downloads, Unacceptable Content, Active Users, Idle Users, and Comments. The main area of the Analyzer Premium window displays a 'Summaries' section with a 'Drilldown' menu and a 'Hits for Top Users' bar chart.

- ▶ With Live, view active and inactive users in real time to establish traffic patterns and decipher data on large networks, where multiple users might access a single workstation.
- ▶ Analyzer Premium's intensive drill-down ability can be used in conjunction with Sentinel's full data capture facilities to show the complete detail of Internet use, down to the content of email attachments. Most mail servers cannot even supply email subjects!
- ▶ Analyzer Premium provides custom report generation to Microsoft® Word, Excel or HTML so you get detailed information in the format you require.
- ▶ Comprehensive documentation and on-line help provides quick and easy installation and configuration.
